

Course of the incapacity to work

Beginning at	to	Degree of incapacity (%)

Authorisation of the insured person

Our reinsurer needs the insured person’s authorisation to examine whether the conditions of entitlement to benefits are met. Please forward us an authorisation signed and in due form when submitting the present “Notification of incapacity to work”. If this is not possible, we shall directly contact the insured person to obtain the authorisation.

The signed authorisation is enclosed.

Please contact the insured person to obtain the authorisation.

Required documents/Enclosures

When announcing the incapacity to work to our reinsurer, we need a copy of:

- all daily sickness benefit statements
- all medical certificates
- the accident or illness notification
- the notification sent to the Federal Disability Insurance (IV)

Please make sure that the present notification is complete. Join all the required documents and send us a copy of all future medical certificates and daily sickness benefit statements in good time. Incomplete notifications delay processing and may lead to longer waiting periods e.g. in the case of contribution waivers.

Remarks

This document is a translation. In the event of a dispute, the German version shall prevail.
