Duty of Notification and Data Protection Declaration
Insurers may require you to complete a risk assessment before accepting you into a scheduled insurance scheme.
Valitas Sammelstiftung BVG (hereafter "Valitas") must transfer these risk assessments to any other reinsurers and to medical examiners for processing. As part of this process, Valitas and other reinsurers, as well as medical examiners, require full rights to check the information that you provide in the health questionnaire and to obtain further health-related information about you. Valitas and other reinsurers, as well as medical examiners, will process information about the state of your health for risk assessment purposes and to justify any reservations of rights.
I hereby declare that I have answered all of the questions on this form truthfully and in full. I acknowledge that any breach of my duty of notification may result in my benefits being reduced or refused and in claims for compensation being asserted against me. I consent to my health data being transferred to Valitas and any other reinsurers as well as to medical examiners, and agree that they may use that data for the purposes set forth in this document. Valitas may obtain relevant information regarding my claims history from my previous insurer or third parties, in particular authorities, medical practitioners and their auxiliary staff, as well as social insurance and occupational pension schemes to which I am or was affiliated, in particular for the purposes of risk evaluation and claims management. I also consent to the obtaining of particularly sensitive personal data (e.g. health data) and personality profiles or the accessing and inspection of files maintained by public authorities where this is necessary for risk assessment purposes and for assessing my entitlement to benefits. To this end, I expressly release these medical practitioners and their auxiliary staff from their duty of confidentiality.
